Art Unit: 2124

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-50 are, drawn to an **adder / method for adding**, classified in class 708, subclass 712.
- II. Claims 51-52, drawn to a "**method for selecting block sizes for n bit blocks**", classified in class 716, subclass 6.

2. The inventions are distinct, each from the other because:

Each group of claims is directed to a separate invention. It is noted that the groups maybe belong to a system. However, this is not sufficient to prevent a restriction requirement.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tan V. Mai whose telephone number is (703) 305-9761. The examiner can normally be reached on Tue-Fri from 6:30am to 5:00pm.
